# SHUBHAM WANKAR

(+91) 7385294316      shubhwankar88@gmail.com      https://github.com/DevShubh88

## EDUCATION

**B.E. in Electrical Engineering**
Priyadarshini College of Engineering, Nagpur

CGPA:
**7.55**

**XII**
Janata Mahavidyalaya, Chandrapur

Percentage
**70.00%**

**X**
Lokmanya Tilak Vidyalaya, Chandrapur

Percentage
**92.18%**

## SKILLS

Java   C++   Javascript

HTML   CSS   React

Hibernate        Spring

Spring Data JPA

MYSQL   Spring Boot

Attention to Details

Good Communication Skills

## SUMMARY

To leverage my knowledge of software development and programming skills in a dynamic environment, where I can contribute to projects, learn from experienced team members, and grow my career in software engineering.

## TRAINING/COURSES

### PG Diploma in Advance Computing

Centre for Development of Advanced Computing: C-DAC 2024

Course Description

- Coursework in Programming Languages, Algorithms, Web development, Database management, SDLC, Agile methodologies, and Version control (Git).

## PROJECTS

### TODO App

Developed a task management app using React for component-based UI, Context API for global state management, and Local Storage for data persistence. Key features include task creation, deletion, and completion with real-time updates. The app retains tasks across sessions through Local Storage.

-------------------------------------------------------------------------------------------------

### Car Pooling System

Swift Rides
Description: Swift Rides is the Car Pooling System aims to provide a user-friendly platform that connects individuals looking to share rides for their daily commutes or occasional trips.
Technologies: Backend with SpringBoot, Spring Data JPA, MySQL database and Frontend with React.

## ACHIEVEMENTS / INTEREST

❖ Swimming
